

معرفی پایگاه اطلاعاتی

ClinicalKey®

گردآورنده: الهه یاراحمدی کارشناس اطلاع رسانی پزشکی

معرفی

کلینیکال کی از مجموعه انتشارات Elsevier می باشد (فقط محتوای انتشارات Elsevier را ارائه می دهد). پایگاهی برای جستجوی اطلاعات بالینی در حوزه پزشکی است. این پایگاه منبعی جامع، معتبر، سریع و روزآمد برای بازیابی اطلاعات بالینی در فرمت های مختلف کتاب، مقاله، گایدلاین، فیلم، عکس، اطلاعات دارویی، مشاوره بالینی، مشاوره جراحی، کارآزمایی های بالینی و اطلاعات مناسب بیماران است.

این پایگاه دربرگیرنده موارد زیر می باشد:

* عنوانین کتب مرجع پزشکی و جراحی از ناشرانی همچون Elsevier, Saunders, Wiley و به صورت تمام متن می باشد.

* زورنال های Elsevier (پزشکی و جراحی) از سال ۲۰۰۷ به بعد

* مجموعه Lancet

* مقالات Clinical Review شامل سیستماتیک ریووو با فروکوسبز مباحثت بالینی

* شامل اطلاعاتی در مورد بیماری ها و کمک به درمان First Consult

* شامل فیلم و آنیمیشن اعمال جراحی Proceeding Consult

* ویدئوهای جراحی

* بانک اطلاعاتی دارویی تهیه شده توسط شرکت Gold Standard

* خلاصه مقالات مدلابین کتابخانه ملی پزشکی

* بانک اطلاعات تصاویر و جداول

● در این پایگاه، عملگرها بجز عملگر کوتیشن ("") کاربردی ندارند.

محتوای اطلاعاتی

کلینیکال کی با فراهم نمودن دسترسی خارج از دانشگاه (Remot Access) به کاربران عضو این اجازه را می دهد که خارج از محیط دانشگاه بدون نیاز به VPN به این پایگاه وصل شوند. البته باید یک بار با ایمیل دانشگاه ثبت نام کرده و از دانشگاه وارد شده و پس از آن امکان استفاده از پایگاه در خارج از دانشگاه برای شما وجود دارد. این امکان تا شش ماه فعال است. بعد از شش ماه دوباره از طریق دانشگاه خود باید وارد پایگاه شوید تا نشان دهید که هنوز عضو دانشگاه هستید.

ثبت نام در کلینیکال کی

در صفحه اصلی در قسمت رجیستر اطلاعات خود شامل نام، نام خانوادگی و آدرس پست الکترونیک را وارد نموده سپس آدرس لینک به ایمیل شما ارسال می گردد که با فعال کردن آن می توانید در این پایگاه ثبت نام کنید. (ثبت نام با استفاده از ایمیل آکادمیک امکان استفاده از پایگاه را در خارج از دانشگاه برای شما فراهم می سازد در غیر اینصورت شما فقط در محیط دانشگاه می توانید از این پایگاه استفاده نمایید.)

افرادی که در پایگاه **Science Direct** با ایمیل آکادمیک ثبت نام کردند نیازی نیست در این پایگاه ثبت نام نمایند.

The screenshot shows the ClinicalKey homepage. At the top left is the 'ClinicalKey' logo. At the top right are links for 'English', 'CME', 'Login', and 'Register'. The 'Register' link is highlighted with a red box. Below the header is a search bar with the placeholder 'Search for conditions, procedures, drugs, and more'. Underneath the search bar is a dropdown menu set to 'All Types' and a 'Search...' input field with a magnifying glass icon. Below the search area is a 'Browse' section with categories: Books, Journals, Drug Monographs, Guidelines, Patient Education, Clinical Overviews/First Consult, and an ellipsis (...). The entire screenshot is framed by a thick black border.

The screenshot shows the Elsevier 'Register' page. At the top, there are 'Search' and 'Browse' buttons. A dropdown menu shows 'All Types'. Below it is a search bar with placeholder text 'Search for conditions, procedures, drugs, and more'. The main title is 'Register' with a sub-instruction: 'Registration is quick and free. It allows you to personalize the Elsevier products to which you have access.' Below this, a note says '*' - Required. [Privacy policy](#). The form is divided into sections: 'Your details' (First name and Family name fields), 'Email and password' (Email address and Password fields), and 'Additional profile details' (checkboxes for newsletter and user agreement). A 'Register >' button is at the bottom.

بعد از ثبت نام و تایید لینک ارسالی، می توانید در قسمت Log in با وارد کردن نام کاربری و رمز عبور وارد پایگاه شوید.

جستجو در پایگاه می تواند شامل موارد زیر باشد:

The screenshot shows a search interface with a sidebar on the left and a main search panel on the right.

Sidebar (Left):

- کتاب
- مقاله
- کارآزمایی بالینی
- اطلاعات دارویی
- گایدلاین ها
- آموزش به بیمار
- مشاوره بالینی
- چند رسانه ای
- مشاوره جراحی

A purple arrow points from the sidebar towards the search panel.

Main Search Panel (Right):

- Search bar: Search for conditions, procedures, drugs, and more
- Filter: All Types (Books, Journals, Clinical Trials, Drug Monographs, Guidelines, Patient Education, Clinical Overviews/First Consult, Multimedia, Procedures Consult, Clinical Focus)
- Buttons: Guidelines, Patient Education, Clinical Overviews/First Consult, ...
- Links: vs and Updates, Trending Topics

با وارد کردن واژه مورد نظر در کادر جستجو، نتایج جستجو نمایان می شود. در صورت درج اشتباه املای واژه، کلمه پیشنهادی در زیر کادر جستجو نمایان می شود. این پایگاه قابلیت جستجو با کلمه، عبارت و مخفف کلمات را دارد.

جستجوی کتاب

با وارد کردن موضوع مورد نظر و انتخاب Book، کتاب های مربوطه نمایش داده می شوند. به عنوان مثال:

The screenshot shows the ClinicalKey search interface. At the top, there is a search bar with the word "leukemia" and a "Books" filter selected. A callout bubble points to the "Books" filter. To the left, a green box contains the following text:

دو نوع مقاله در نتایج می توان مشاهده نمود:

- ❖ مقالات فول تکست
- ❖ مقالات مدلاین.

مقالات فول تکست را می توان به طور کامل در سایت مطالعه نمود و یا به صورت pdf ذخیره نمود.

مقالات مدلاین فقط به شکل چکیده ارائه می شود و شما را به آدرس آن مقاله در pubmed ارجاع می دهد و می توانید از آنجا فول تکست مقاله را ببینید.

اگر مقالات مرور سیستماتیک را بخواهید از روی **Filter By** روی **Systematic Reviews** کلیک کنید.

اگر بخواهید مبحث مورد نظر را از نظر حیطه موضوعی خاصی بررسی کنیم از فیلتر **Specialties** آن گزینه را انتخاب می کنیم.

اگر بخواهید نتایج را به سال خاصی محدود کنید از فیلتر **Date** انتخاب می کنیم.

توضیح سریع در مقاله

The screenshot shows a search results page on the ClinicalKey platform. The search term 'leukemia' is entered in the search bar. The results list a full-text article from the journal JACC (Journal of the American College of Cardiology). The article is titled '2018 ACC/HRS/NASCI/SCAI/SCCT Expert Consensus Document on Optimal Use of Ionizing Radiation in Cardiovascular Imaging: Best Practices for Safety and Effectiveness'. The article is authored by a large team of experts from various medical fields. The ClinicalKey interface includes a sidebar with navigation links like 'Journals', 'Table of Contents', 'Preamble', etc., and a right sidebar with journal information and subscription options.

اگر مقاله ای در مدلاین پیدا کردید که بدر تان می خورد با توجه به اینکه کلینیکال کی فول تکست مقالات مدلاین را نمی دهد می توانید متن کامل آن را با کلیک روی Pubmed ID به دست آورید.

کارآزمایی بالینی (Clinical Trials)

کارآزمایی بالینی یک مطالعه پژوهشی به منظور ارزشیابی و مشاهده اثر یک مورد معین در سلامت فرد می‌باشد. ثبت کارآزمایی بالینی از مطالعات تکراری جلوگیری می‌کند. اطلاعات خلاصه‌ای در مورد یک مطالعه از جمله زمان نشر، بیماری مورد مطالعه، درمان انتخابی و ... می‌توانید مشاهده کنید.

The screenshot shows a search interface for clinical trials. The search bar at the top contains the term "leukemia". Below the search bar, there are two tabs: "Clinical Trials" (which is selected and highlighted with a yellow box) and "Browse". To the right of the search bar are "Search" and "Browse" buttons. The main area displays search results for "leukemia". On the left, there is a sidebar titled "Filter By" with a "Clear all" button. Under "Source Type", the "Clinical Trials" option is selected (indicated by a yellow circle). Other filter options include Journal Articles, Full Text Only, Full Text and MEDLINE, Systematic Reviews, Meta-analyses, Randomized Control Trials, Narrative Reviews, Books, Images, and various types of guidelines and reviews. There is also a date filter section. The search results list four clinical trials:

Clinical Trials LUKEMIA

PURPOSE
Busulfan Plus Clofarabine Followed by Allogeneic Hematopoietic Stem Cell Transplantation

First received on October 2, 2009. Last updated on July 11, 2018.

Purpose

The goal of this clinical research study is to test the safety of giving clofarabine in combination with busulfan, followed by an allogeneic (from a donor) stem cell transplant, in patients with advanced leukemia or lymphoma.

Status	Completed
Condition	Leukemia
Phase	Phase 2
Study Type	Interventional
Official Title	Busulfan Plus Clofarabine Followed by Allogeneic Hematopoietic Stem Cell Transplantation for Patients With Acute Lymphoblastic Leukemia or Lymphoma, or Biphenotypic Leukemia

Further study details (as provided by National Institutes of Health Clinical Center (CC))

Enrollment: 120
Start Date: October 2009

Detailed Description

بعضی کارآزمایی های بالینی در حال انجام هستند (Recruiting) و برخی دیگر به وضعیت (Completed) اتمام رسیده اند.

همان اطلاعات <https://clinicaltrials.gov> را ارائه می دهد. می توانید با استفاده از کد شناسایی آن به اطلاعات دقیق تری دست یابید.

اطلاعات دارویی

اطلاعات دارویی از دو شیوه قابل جستجو می باشد:

- وقتی بخواهید بدانید برای یک بیماری چه داروهایی هست؟
- وقتی بخواهید اطلاعاتی درباره یک داروی خاص به دست اورید.

Drug گزینه Source Type جهت به دست آوردن اطلاعات در مورد دارویی خاص و تشخیص دارویی مناسب برای بیمار، در کادر اصلی جستجو، نام دارو را تایپ کرده سپس از کشوی Monographs را انتخاب کنید.

با کلیک کردن روی هر کدام از نتایج اطلاعات دارویی، نحوه مصرف، تداخلات، عوارض و ... نمایش داده می شود.

جهت جستجوی دارو برای درمان بیماری خاص، نام بیماری در کادر جستجو نوشته شده و سپس Monographs انتخاب می شود.

Description

Acetaminophen; chlorpheniramine; phenylephrine; phenyltoloxamine is a prescription combination product used for the temporary relief of headache, pain, nasal congestion, rhinorrhea, and sneezing associated with allergic rhinitis. Acetaminophen possesses analgesic and antipyretic activity similar to aspirin; however, acetaminophen has no peripheral anti-inflammatory activity or effects on platelet function. Acetaminophen is the preferred analgesic/antipyretic for patients in whom aspirin is contraindicated (e.g., those who have a history of gastric ulcer or a coagulation disorder). In addition, acetaminophen has been recommended by the American Lung Association as the first line treatment for aches and pains associated with the flu. Chlorpheniramine is a first generation antihistamine (H₁-blocker) commonly used for treating symptoms related to histamine release such as rhinorrhea and sneezing. Phenylephrine is a sympathomimetic amine used as a decongestant to decrease nasal and sinus congestion. Phenyltoloxamine is a sedating antihistamine of the ethanolamine class. Phenyltoloxamine is used in this product as an adjunct to acetaminophen for the treatment of pain. Overall, however, its use for this purpose is questionable since some data do not indicate a substantial benefit.

Acetaminophen; chlorpheniramine; phenylephrine; phenyltoloxamine is available in an extended-release tablet formulation for adults and children.

Mechanism of Action

Mechanism of Action: This analgesic-antihistamine-decongestant combination acts synergistically for the temporary relief of headache, pain, nasal congestion, rhinorrhea, and sneezing associated with allergic rhinitis.

راهنمای بالینی (Guidelines)

برای پیدا کردن راهنمای بالینی از این قسمت استفاده می کنیم. راهنما ها به دو دسته سازمان پدیدآورنده منبع و موضوع تقسیم بندی شده اند.

به عنوان مثال یک گایدلاین در مورد ریه می خواهید:

The screenshot shows a search interface for medical guidelines. At the top, there are tabs for 'Search' and 'Browse', and a search bar containing 'LUNG'. Below the search bar, the word 'Guidelines' is highlighted with a red box. On the left, there is a sidebar titled 'Filter By:' with a 'Clear all' button. Under 'Source Type', 'Guidelines' is selected. Other filter options include 'Journal Articles', 'Full Text Only', 'Full Text and MEDLINE', 'Systematic Reviews', 'Meta-analyses', 'Randomized Control Trials', 'Narrative Reviews', 'Books', 'Images', 'Clinical Trials', 'Videos', 'Specialties', and 'Date'. The main content area displays a list of guidelines under the heading 'GUIDELINE'. The first result is 'Balloon dilatation with or without stenting for pulmonary artery or non-valvar right ventricular outflow...', published by National Institute for Health and Care Excellence (NICE) on July 26, 2004. The second result is 'Rivaroxaban for treating pulmonary embolism and preventing recurrent venous thromboembolism', also from NICE, published on June 26, 2013. The third result is 'Rivaroxaban for Treating Pulmonary Embolism and Preventing Recurrent Venous Thromboembolism', published by NICE on February 5, 2014. The fourth result is 'Appropriateness Criteria: Screening for Pulmonary Metastases', published by American College of Radiology on April 25, 2014. The fifth result is 'Cystic Fibrosis Pulmonary Guidelines: Pulmonary Complications: Hemoptysis and Pneumothorax', published by Cystic Fibrosis Foundation on July 18, 2012. There are 12 results in total, sorted by relevance.

GUIDELINE**Balloon dilatation with or without stenting for pulmonary artery or non-valvar right ventricular outflow tract obstruction in children (IPG76)**

National Institute for Health and Care Excellence (NICE)

1 Guidance

1.1 Current evidence on the safety and efficacy of balloon dilatation with or without stenting for pulmonary artery or non-valvar right ventricular outflow tract obstruction in children appears adequate to support the use of this procedure, provided that the normal arrangements are in place for consent, audit and clinical governance.

1.2 The procedure should only be undertaken in specialist paediatric cardiology units.

1.3 The Department of Health runs the [UK Central Cardiac Audit Database \(UKCCAD\)](#) and clinicians are encouraged to enter all patients into this database.

2 The procedure**2.1 Indications**

2.1.1 The right ventricular outflow tract includes the pulmonary valve and the tissue above and below it. Narrowing (stenosis) of this region may involve the area below the valve (subvalvar), the valve itself (valvar), or the area above the valve (supravalvar). [Balloon dilatation of valvar right ventricular outflow tract narrowing \(pulmonary valve stenosis\)](#) is covered in separate guidance.

2.1.2 Congenital subvalvar and supravalvar right ventricular outflow tract stenosis usually occurs with other cardiac defects, such as ventricular septal defect or tetralogy of Fallot. Postoperative right ventricular outflow tract obstruction may occur after surgery to create a conduit between the right ventricle and pulmonary artery in children with congenital anomalies. Narrowing may also occur beyond the right ventricular outflow tract, in one
